# Open-top Tool Carrier.

A classic tool bag the Hultafors way.

This is a classic, all purpose, soft sided tool box. It has an open top with lower sides for easy access and overview. The large centre compartment is lined with pockets and toolholders. Alternating red and black fabric makes it easier to tell different tools and pockets apart.

There are medium sized pockets with lids and zippers for safe storage of sensitive equipment. You'll also find a holder for long and narrow tools such as spirit levels and hand saws on the outside of the bag. It also features an external tape measure holder, an electrician tape strap, pen holders, a key chain holder and elastic loops for smaller tools such as screwdrivers. The bag is made from an extremely durable ballistic polyester - 1680 Denier - for maximum wear resistance and service life. The handle is extra high, making it easier to reach down and pick up the bag. It has a long rubber covering so you can grip comfortably along the entire handle and balance an unevenly loaded bag. The adjustable shoulder strap is padded and has an anti-slip surface for comfortable and easy carrying. It is detachable, with metal carabiners for maximum durability.

- 35 pockets and tool holders, including a clip for measuring tapes, a tape-strap and a holder for longer tools.
- Fold-away handle with extra-long ergonomic rubber clad grip.
- The bag is tested with a 60 kg static load and made from an extremely durable ballistic polyester - 1680 Denier.
- Adjustable and padded shoulder strap with durable metal carabiners.
- Dimensions: 54 x 31 x 29 cm

Tool Carrier with 35 pockets.

Alternating red and black fabric.
